

Quick Start Instructions

Congratulations on securing your copy of Authority Ignition.

As you'll see for yourself, this will be the best investment you ever made, and we don't say this lightly.

Here's what you need to do to get started.

Bear in mind, you only have to go through this set-up process ONCE, and this funnel will then be primed start working for you.

All you have to do is the following simple steps, and you'll be all set.

Step 1:

Edit the Internet Marketing Ignition index.html page to personalize it with your mugshot, autoresponder opt-in form and signature (optional)

Step 2:

Edit the thank you page, lesson pages and bonus page with your affiliate links with the provided list below.

Step 3.

Upload your email autoresponder messages, making sure to customize the links in the emails to point to your domain. The time interval for the emails should be set a day apart.

Transfer the files to your domain and hosting via FTP, and you're all good to go!

You can refer to the provided bonus video "Tech" library if you're not sure of how to do the above.
